

Nataraj

Senior AVP, SWELECT Energy Systems Limited

QUALIFICATIONS

- M.Tech in Chemical Engineering, IIT Roorkee

EXPERIENCE & EXPERTISE

Mr. Nataraj is a seasoned renewable energy and sustainability professional with over 18 years of experience across solar energy advisory, project structuring, financial modelling, Renewable Energy Certificate (REC) mechanisms and contract management. He brings strong technical understanding and strategic insight to the development and implementation of clean energy and sustainability initiatives.

Throughout his career, Mr. Nataraj has contributed significantly to sustainability strategy, Environment, Health & Safety (EHS) audits, due diligence, carbon advisory and climate change initiatives. His experience spans the assessment of renewable energy opportunities, development of commercially viable project structures and advisory support for environmental and sustainability programmes.

At SWELECT Energy Systems Limited, Mr. Nataraj serves as Senior AVP, where he applies his expertise in renewable energy, sustainability and environmental stewardship to support clean energy solutions and strategic initiatives. His role combines technical acumen, financial understanding and sustainability-focused advisory to enable impactful outcomes.
