Dear Sir / Madam,

Sub: Press Release

This has reference to the Regulation 30 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, Please find enclosed the press release titled "SWELECT Energy brings SOURCE - Hydropanels aimed at gradually reducing India's most acute crisis – Access to drinking water".

The above mentioned press release is also available on website of the Company www.swelectes.com.

This is for your information and records.

Thanking you,

Yours faithfully,
For SWELECT ENERGY SYSTEMS LIMITED

R. CHELLAPPAN
MANAGING DIRECTOR

PRESS RELEASE

“SWELECT Energy brings SOURCE - Hydropanels aimed at gradually reducing India’s most acute crisis – Access to drinking water”.

Chennai, July 27 2018: SWELECT Energy Systems Limited (SWELECT), the leading Solar Technology Solution Provider has partnered with Zero Mass Water (ZMW), a US-based company founded to solve global drinking water challenges. SWELECT is proud to introduce SOURCE to the Indian market to provide drinking water for every Person in every place across the country.

Every person experiences water stress ranging from contamination to scarcity. Water stress is a human condition across the world and across the socioeconomic spectrum. ZMW’s vision is to eliminate this stress or to perfect water for every person in every place.

This is accomplished by making drinking water an unlimited resource with SOURCE Hydropanels. This technology uses sunlight and air to make, mineralize and deliver a perfected supply of drinking water right to your tap.

The following attributes have made SOURCE a truly indispensable product:

- **Water Independence** – SOURCE water flows conveniently to the tap from infrastructure-independent panels on the roof. Low-maintenance and always delicious, you own your water.
- **Renewable** – Powered by Solar, SOURCE Hydropanels tap into the inexhaustible supply of fresh water in the atmosphere, eliminating plastic and water waste.
- **Drinking Water, Perfected** – SOURCE Hydropanels make and mineralize pure water for taste and health benefits. Unlike municipal or bottled water, SOURCE is without waste.
- **Every Person, Every Place** – Every person in the world has a right to perfected drinking water. With SOURCE, water ownership is made possible worldwide, providing independence over your water while saving money and avoiding water waste and plastic trash.

For schools, offices, and homes around the world SOURCE is providing on-site water production that is infrastructure-free, high-quality, and without any of the issues associated with municipal and bottled water.

Today, SOURCE is installed in 15 countries across 5 continents.

A blue ink handwritten signature, appearing to be 'S. S.', is located to the left of the official stamp.

Mr. R. Chellappan, MD said that

“Solar is beyond Photovoltaic and Thermal....it has now forayed into water production. SWELECT brings SOURCE Hydropanel, the most safe, clean and renewable way of getting drinking water from nature to our human lives. We aim to make our Planet water independent & free from plastics to port water”

About SWELECT Energy Systems Ltd:

SWELECT (formerly known as Numeric Power Systems Limited) is one of the leading Solar Power Systems Company in India with a strong presence in Indian energy market for over 30 years. SWELECT’s core strength lies in technical expertise which is strongly backed with state-of-art manufacturing facilities for Solar PV Modules (HHV ST), Solar PCUs, structural and electrical Balance of Systems (BOS) such as Module Mounting Structures (MMS), AJBs, etc.

SWELECT is among the Global Solar Module Manufacturers to have attained Tier-1 status from Bloomberg New Energy Finance (BNEF), the highly recognized global industry standard in classifying solar Photo Voltaic module manufacturers. This recognition is bestowed for the 110 MW State-of-Art World-Class Solar PV Module Manufacturing facility at Dabaspeta, Bangalore, Karnataka, which offers “High Quality, High Efficiency and Highly Reliable Solar PV modules combined with Bankability” in the brand name “HHV Solar” at varying capacities with International Certification and compliance to IEC Standards.

SWELECT (www.swelectes.com) has the ability to implement solar power projects in small as well as large scales with utmost understanding of customer requirements and customized solutions. SWELECT has installed over 9000 Utility scale, Roof Top and Solar water pump projects over 150 MW capacity across India and overseas.
